

A selection of analysed Facilities:

- brown and hard coal fired power stations
- combined heat and power station based on coal, light oil and natural gas
- heating houses of different facilities
- biomass-fired CHP plants
- biogas and natural gas CHP plants
- facilities of glass, ceramic and cement producing industry
- wood incineration facilities
- sludge incineration facilities
- pyrolysis facilities
- shredder facilities
- hazardous / special waste incineration facilities
- ammunition disposal facilities
- steelworks
- metalworking industry
- woodworking industry
- cement and gypsum industry
- paint and printing industry
- textile industry
- chemical industry
- smokehouse facilities
- crematoria
- combustion engine based on natural, sewage, landfill and bio gas
- waste treatment facilities
- [Oxyfuel](#) - technology power station
